

### **REMARKS**

This Amendment responds to the Office Action mailed on August 15, 2008. Claims 24, 31, 34, and 40 have been amended. Reconsideration of the remaining claims is respectfully requested in light of the above amendments.

### ***Examiner Interview***

The undersigned thanks Examiner Patel for the courtesies extended during a telephone interview on November 25, 2008. During the interview the cited Flowers reference (U.S. 5,533,174) was discussed along with independent claim 1. During the interview, the Examiner agreed that the above amendment to independent claim 24 would overcome the present rejection. Therefore, the same amendment has been incorporated into each independent claim.

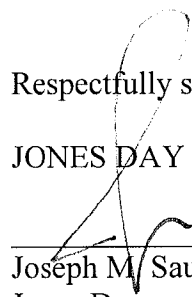

The Flowers reference fails to disclose or otherwise suggest a client profile comprising a font capabilities list for multiple devices, wherein each font capabilities list comprises a list of fonts for which a device has font structure data. Therefore, the Applicant respectfully requests that claims 24, 31, 34, and 40 be allowed.

### ***Conclusion***

For at least the above reasons, the applicant respectfully submits that the pending claims are patentable over the cited references and are in condition for allowance.

Respectfully submitted,

JONES DAY

---

Joseph M. Sauer (Reg. No. 47,919)
